REPORT

TOPIC Schoenwalde AirfieldEVALUATION  PLACE OBTAINED DATE OF CONTENT DATE OBTAINED  DATE PREPARED 3 December 1954REFERENCES PAGES 1 ENCLOSURES (NO. & TYPE) REMARKS  This is UNEVALUATED  
Information 

1. At about 0900 on 15 October 1954, 2 Il-10s  were parked in front of the hangars. The field could only be partially seen. There was no air activity. There was a 2/10 overcast at an altitude of  2,000 meters. The antenna installation of four wooden masts, about 18 meters high, a small green wooden building and a concrete bunker were still seen on the drill ground.<sup>1</sup>
2. Some of the buildings in the air force quartering area were occupied. Colonel Tyulenev (fnu) (AAAunit) was not the auditor of the unit stationed in these buildings.<sup>2</sup> 25X1
1.  Comment. Only Po-2s were so far observed at Schoenwalde airfield. A temporary stay of Il-10s at the field is reported for the first time but is believed credible. The antenna installation had already been observed by the same source in November 1953. It probably belongs to the details of the 31st AAA Div which are stationed in the quartering area at the field. 25X1
2.  Comment. Colonel Tyulenev is the auditor for the AA gun emplacement at Meissnerhof and the Unit Zeryinenko and Unit Krasnogolovtsev at Steinforde. 25X1
